1. Claims 1-28 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The following claimed features are not shown or suggested by the prior art of record: The combined steps in a compiler to compile a family of related functions of:

- recognizing a *member function* from a *family of related functions*, wherein each member function of the family of related functions is a mathematical function operable to be executed using a set of instructions and *a portion of the set of instructions for each member function are identical*

- making a family-start call for said family of related functions... *the family-start function performing the identical set of instructions for each member function*

- making a member-finish call for said member function ... *the member-finish function performing instructions unique to the member function... to reduce the number of instructions executed by a computer architecture in computing more than one member function from said family of related functions.*

These claim limitations are recited in each of the independent claims 1 and 13; thus, all remaining claims are also allowed. The system reduces total number of operations performed in a program containing several related functions by replacing a number of related functions with one family start function (containing all of the redundant operations from each of the related functions) and a number of corresponding member finish functions (containing the unique operations from each of the related functions).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andre R. Fowlkes whose telephone number is (571) 272-3697. The examiner can normally be reached on Monday - Friday, 8:00am-4:30pm.
